

18CC

With the draft of a skiff, a 120-mile range, and the soft ride of a much larger deep-vee center-console, you have inshore and offshore capability in the new Carolina Cat 18CC.

SPECIFICATIONS

| | |
|-------------------|-----------|
| L.O.A. | 18'2" |
| Beam | 8'1" |
| Draft | 9" |
| Weight (hull) | 1,500 LBS |
| Max Power | 115 HP |
| Fuel Capacity | 30 GAL |
| Livewell Capacity | 24 GAL |

The Carolina Cat 18CC has an impressive 8-foot beam, and with an overall length of 18-feet 2-inches, she offers over 120 square feet of cockpit and a stable, soft-riding package. This cat features a 33-square-foot casting platform and includes trolling pads on both the port and starboard sides. The standard package includes twin bilge pumps, 24-gallon livewell, 72-quart cooler seat, tackle center, large storage compartment under the casting deck, twin anchor lockers, dual aft jump seats and hydraulic steering.

The Carolina Cat 18CC is constructed using high-grade composite materials with a fully foam-filled grid stringer system glassed into the hull.
